July 23, 2011

Dear Mike,

Congratulations on completing the requirements for the Carbon Star Observing Club.

It is my pleasure to send you your certificate and pin. Display them proudly. This is a significant accomplishment. Carbon Stars are among the sparkling jewels of the night sky. We hope you enjoyed these observations and have learned about some of the characteristics of carbon stars that make them so special.

Clear Skies.

Aaron B. Clevenson
