

ASTRONOMICAL LEAGUE FLAT GALAXY PROGRAM

May 17, 2012

Mike Hotka
1425 Snowberry Lane
Broomfield, CO 80020

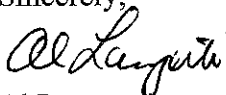

Dear Mike,

Congratulations on observing and imaging 103 of the Flat Galaxies and earning Honorary certificate #13 of this very challenging program. I see from your comments that this endeavor has made you aware of the uniqueness of these objects and will spur you on to observe more of them. Your log sheets are extremely well organized as evidenced by your vast experience with observing Programs over the years.

The images on the certificate were taken by fellow Delaware Valley Amateur Astronomers member Dick Steinberg.

I hope to hear more about your observing achievements in the future.

Sincerely,

Al Lamperti
Flat Galaxy Program Coordinator
